WORK EXPERIENCE

Mojo Design

Nicosia, Cyprus [remote]

Frontend Developer Paid Intern

May 2024 – Present

- Full-Stack Development: Built and maintained websites for clients at Mojo Design using PHP, WordPress, and JavaScript, ensuring robust and dynamic web solutions.
- Custom WordPress Solutions: Developed custom WordPress themes and plugins, utilizing Elementor for design and integrating WooCommerce and Yoast SEO for added functionality.
- Client Collaboration: Worked closely with clients at Mojo Design to understand requirements and deliver tailored solutions, increasing client retention by 15%.
- Website Maintenance: Performed regular updates and maintenance on client websites, ensuring security and optimal performance.
- Responsive Design: Implemented responsive design principles to ensure websites were accessible across all devices, enhancing user experience.

Frontend Simplified

[remote]

Frontend Development Internship

March 2024 -

August 2024

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels.
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing.
- Utilized Git version control and the Github interface to work and thrive in a virtual and collaborative team environment.

Projects

TimeBox

- Project Management: Contributed to planning, development, and deployment phases using Agile methodologies, demonstrating effective project management.
- API Integration: Integrated third-party APIs with React and Node.js to enhance functionality and user experience.
- Code Quality: Maintained high code quality and readability in JavaScript and TypeScript by implementing best practices and conducting peer code reviews.
- Problem-Solving: Resolved complex bugs and optimized performance in React, improving app efficiency by 20%.
- Version Control: Utilized Git and GitHub for version control and collaboration, ensuring smooth workflow and code integrity.

E-Commerce Library

- Utilized React's state management to handle complex user interactions and data flows, providing a seamless and interactive user experience.

- Developed a dynamic library management application using React.js to create an intuitive and responsive user interface, improving user interaction and engagement.
- Optimized performance through code-splitting and lazy loading, improving load times and application responsiveness for users.
- Integrated third-party libraries and APIs in React, extending application functionality and providing users with enhanced features and data.
- Deployed the application using Vercel, ensuring smooth and reliable access to users with minimal downtime and efficient performance.

EDUCATION

Frontend Development Bootcamp
